

BLUEMAX PAY

Stop figuring out payments separately.

Bluemax Pay over the last two years has built a native Odoo solution that covers terminals, POS, online checkout, and In App sales.

KEY DIFFERENTIATOR

No other provider offers native card-present terminal support inside Odoo. Stripe and PayPal have plugins, but they don't cover terminals. That's our wedge, and yours.

How the Co-Sell Works

- 1 You identify a client who needs payment processing in Odoo.
- 2 You introduce us via warm handoff (email or joint call).
- 3 We handle merchant onboarding, module setup, and terminal config.
- 4 Client goes live. You look like a hero. We handle payment support.

What's In It For You

- ✓ Get paid for every client introduction that converts to a signed merchant.
- ✓ Zero technical lift: we handle setup, support, and terminal provisioning.
- ✓ Stronger client relationships: you solve a real pain point they have today.
- ✓ Co-marketing: joint case studies and Odoo community visibility.

15-minute discovery call. No pitch. No commitment.

We do the heavy lifting so your client has a smooth go-live.
